

TAKE CONTROL

INFORMATION TECHNOLOGY SPECIALISTS

With more than 50,000 employees in multiple locations using disparate systems to move tens of thousands of flights through U.S. skies daily, the FAA offers never-ending challenges for our information technology professionals. The majority of our positions involve problem solving or troubleshooting. Program your own opportunity in one of the following areas:

- › Networking
- › Web development
- › Desktop configuration/support
- › Hardware/software development
- › Site adaptation
- › Data analysis

QUALIFICATIONS

Our entry-level positions require either three years of IT experience with data processing or workflow automation, or a B.S. degree in computer science, information systems management, mathematics, statistics or engineering. You must be a United States citizen.
